ALLOWANCE

Response to Amendment

1. This action is responsive to the Amendment After Final filed on 26 January 2004. Claim 23 is now cancelled. No claims have been amended and no new claims have been added. Claims 1, 2, 4-9, 12, 13, 15-18, 20-22, and 24 are now pending in the application.
2. Based on the Amendment, the objections to the Drawings are withdrawn and the rejection of claim 23 under 35 USC 112, second paragraph, is also withdrawn.

Response to Arguments

3. Applicant's arguments filed on 26 January 2004 have been fully considered and they are persuasive. The Applicants' primary argument is that the Fan et al. reference (U.S. Patent No. 6,449,406 to Fan et al.) does not disclose "the adapting of beam steering parameters in response to an optical loss parameter", nor is it obvious to adjust a beam steering parameter (micro-mirror) in response to a detected failure. The examiner has thoroughly reviewed these arguments, and agrees that there is not enough evidence to show that it would have been obvious to one having ordinary skill in the art at the time the invention was made to adjust the micro-mirrors in response to the detection of a failure. Based on this, the examiner has decided to withdraw the rejections/objections to claims 1, 2, 4-9, 17, 18, 20, and 21.

Allowable Subject Matter

4. Claims 1, 2, 4-9, 12, 13, 15-18, 20-22, and 24 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the non-obvious improvement of U.S. Patent No. 6,449,406 to Fan et al. The improvement comprises the adapting of the beam steering parameter in response to the optical loss parameter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
